

Amendments To The Claims

This Listing Of Claims will replace all prior versions, and listings, of claims in the application:

Listing Of The Claims:

Claim 1 (Currently Amended): A discharging container with a filter compromising:

a bottle which is formed in a manner wherein an inner layer peelable from an outer layer is formed on an inner surface of the outer layer;

a plug body placed on a mouth portion of the bottle;

a hydrophillic filter provided in a discharging pass which is provided in the plug body for discharging liquid kept in a body liquid kept in a body of the inner layer;

said inner layer has a memory which expands the inner layer in a manner wherein a difference between an inner negative pressure and an ambient air is higher than a liquid filtration resistance of the filter and lower than an air filtration resistance of the filter wetted; and

the negative pressure is caused by the memory of the inner layer and by that liquid remained in a second side of the filter is sucked into a primary side of the filter.

Claim 2 (Cancelled).

Claim 3 (Previously Presented): The discharging container with a filter as set forth in claim 1, wherein said bottle does not have an outer layer.

Claim 4 (Previously Presented): The discharging container with a filter as set forth in claim 1, wherein the inner layer is made of synthetic resin, and average thickness of the inner layer is over 0.35 mm.
